Why choose Apis?

Apis has delivered technical training to mobile operators, equipment vendors, service providers, regulators, consultants and various other organizations since 1994. Today, our portfolio of courses covers everything from 2G to 5G and from general datacom/IP to cloud, virtualization, SDN and NFV. Furthermore, our courses are always based on the latest GSMA, 3GPP, ETSI and IETF standards.

We operate globally and work with more than 300 mobile operators and enterprise companies in over 80 countries.

IT Security Holistic Overview

GET UP TO SPEED

Assessing, mitigating and understanding security risks in the era of 5G.

As telecommunications evolves and becomes increasingly pervasive in society, cybersecurity will need constant vigilance. Security in the era of 5G is going to require continuous assessment and mitigation to ensure that all vulnerabilities and threats are managed proactively.

It is important too that we look at security holistically from local to international, from operations to supply chain and dependencies.

This 3-day course is focused on providing tools to understand, assess and mitigate the threats and vulnerabilities within a holistic view as Security is all encompassing.

Prerequisites

Introduction to 5G/LTE and light reading on TCP/IP Protocol- recommended but not essential.

NOTE: *This course is not delivered with the FoldOut methodology.*

apis

How you will benefit

- Keep up-to-date with the latest technology
- Bridge skills gaps
- Learn to leverage and deploy the latest technology
- Discover how to identify new, exciting opportunities within your organisation (innovate!)
- Improve your CV and marketability

How your organisation will benefit

- Unleash innovation
- Evolve faster
- Improve retention
- Increase engagement
- Cement your future
- Gain advantage over your competitors
- Boost your bottom-line

Who should attend this course?

Mobile operators, equipment vendors, service providers, regulators and consultants.

COURSE OUTLINE

Information and
Expertise Sharing

Cutting-edge
information

Highly
Interactive

All of our courses can be adapted to meet your organisation's specific requirements.
We will align the content to your strategic goals, thereby ensuring that it makes a
relevant impact on its participants.

Course Chapters

- Understanding Security Concepts and terms
- Holistic Security technology
- Focused on 5G Security Terminology

- 5G Security
- Understanding the Real-world Security Concerns
- 5G Security Vulnerabilities
- 5G Security Architecture
